Kitchens
Customisation

Ideas Limited work closely with main contractors, end users, architects and project managers providing a 'safe pair of hands' coordinating the design, manufacture and installation of bespoke interiors, furniture and joinery solutions across different sectors. We also manufacture technical furniture for multi-screen, multi-user and 24/7 working environments such as control rooms, trading floors, security surveillance and broadcast.

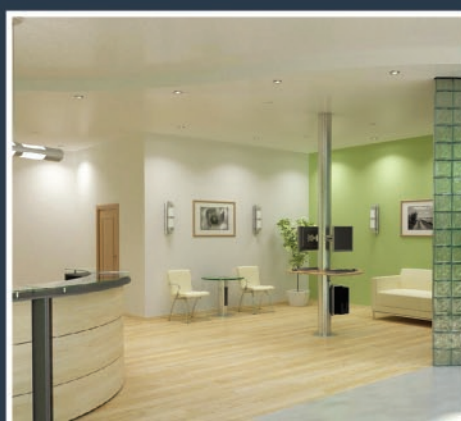

Our strengths are founded in manufacturing industry, interiors, ergonomics and visual communications.

We have created a winning formula linking traditional joinery skills and bespoke manufacturing with creative and technical design talent delivering quality solutions covering a broad range of applications for major organisations.

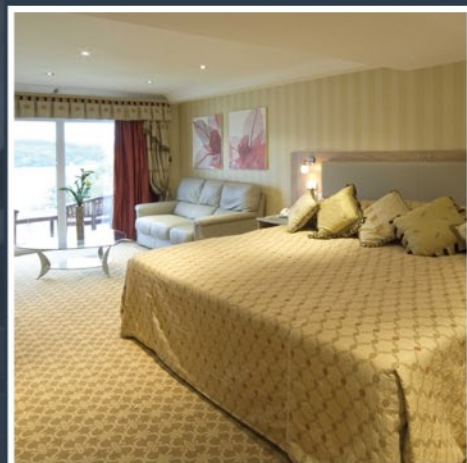

Our customer-focussed approach focuses on all aspects of the design and build process: creative design, technical detailing, manufacture and installation.

Ideas Limited is being recognised as a resource that can add value to customer projects. Take a look at our website and see how we can assist in future projects
